## ABOUT ME

I was working as graphical drawer and designer for few of CD's covers and food products using Photoshop me & CorelDraw v9 during my study in the institute .

Mandatory military service 2005 - 2007 Medical Services - Medic .

Next they asked me to convert some of my designs to be a websites ... so i do that perfectly ,slice it , theme it and convert it to HTML and CSS file ,so i learned to deal with apps themes and create many Interactive Flash User Interface and learn how to script it by using Action Script 3 functions.

During that i was teaching EWB Electronic workbench for drawing the electrical circles on pc and test it in simulation software in the government schools

succeed producing many of children's games. i add animation to it, do simple animations for kids then I have a huge amount of trading production for kids from 10 to 15 years old for School curriculum ,and i was the team leader .

Beside that i was own a small store for selling programs and computer maintenance

Next haved a new job including training on Adobe After Effects to producing a 3D move "SALAH AL-DEEN Al-Aiobi" .. was haved a good knowledge with Ulead Video programs, it gave me good basics and ether knowledge with the sound editing and mixing programs like Sound Forge and Cool Edit because it's my hobby ,so that gave me a powerful skill to work in 3D composting and adding effects by Adobe After Effects

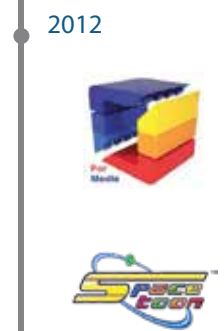

I improve myself in audio video editing and i love to work with effects .

In this war in syria i was have to leav and come to turkya...so i worked in perfume factory to produce every models or in printing section like theme, stationary, perfume Packaging , covers , marketing videos or advertisements .

then i left that work becous the salary was bad .next i worked in relief societies with all printing section and social media designs and marketing .

finally a temporary employment contract with Business group for programing HR ERB , WMS & POS solutions .

hope to be a leader of a team work to have my new vision of media.
